PROFESSIONAL SUMMARY

Oracle ERP and CRM specialist with 6+ years of enterprise application support, PL/SQL development, and platform upgrade delivery for Broadcom Inc., a top-five global semiconductor manufacturer. Technical lead of a full ModelN platform upgrade covering architecture, a 14-environment build, and production cut-over completed with no major incidents. Rated Outstanding Contribution in two consecutive annual appraisals and recipient of a client-issued Broadcom Star Award. Ontario Graduate Certificate in Cloud Architecture and Administration (4.0 GPA, President's Honour List) and Microsoft Azure certified.

TECHNICAL SKILLS

Oracle and Enterprise Applications: Oracle E-Business Suite R12 (12.2.4, 12.2.7), PL/SQL, Oracle SQL, ModelN (Winter 14, Winter 17, Spring 20), Oracle CPQ Cloud, Oracle Engagement Cloud, Oracle Database 10g, 11g and 12c

Middleware and Infrastructure: Oracle WebLogic 12c, Oracle HTTP Server, Apache, JBoss, OpenJDK, Okta, SSL and certificate management, Qualys vulnerability remediation

Scripting and Development: PL/SQL, Unix shell scripting, Perl, Python, Bash

Support Operations: Incident, problem, change and release management, SLA management, root cause analysis, ServiceNow, Jira, disaster recovery planning, audit support

Integration: EDI and RosettaNet (3A15, 3A16, 5D7, 5D8, 5C2, 5C4, 849), SOA, BICC, Incorta, Workato, Automic

DevOps and Cloud: FlexDeploy, Gerrit, Git, GitHub Actions, AWS (EKS, ECR, ALB, VPC), Microsoft Azure, Terraform, Kubernetes, Docker

PROFESSIONAL EXPERIENCE

Wipro Technologies (Client: Broadcom Inc.) - Bengaluru, India

August 2015 - December 2021

Technical Lead

July 2021 - December 2021

- Led the application maintenance and support team for Broadcom's Sales and Marketing CRM tower covering ModelN, Oracle CPQ Cloud and Oracle Engagement Cloud, integrated with Oracle EBS R12
- Owned SLA adherence, ticket queue health and customer satisfaction metrics across three application tracks; represented the ModelN track in all Asia time zone client forums
- Delivered a mass repricing of 27,000+ ModelN distributor quotes in partnership with the business, earning direct written appreciation from the client
- Remediated Qualys-flagged Java and server vulnerabilities across all ModelN servers and planned and executed the Apache 2.4.51 security upgrade
- Mentored five to six junior engineers into independent contributors through code reviews, documented playbooks and knowledge transfer sessions

Associate Consultant

November 2018 - June 2021

- Provided Tier 2 and Tier 3 production support and development across ModelN, Oracle CPQ and Oracle Engagement Cloud, integrated with Oracle EBS R12
- Served as technical lead of the ModelN Spring 20 upgrade workstream within Broadcom's enterprise-wide BEST20 modernization program: owned architecture, built 14 application instances end to end on JBoss, Apache and OpenJDK, and authored the cut-over sequencing plan executed by the program command center
- Developed and maintained PL/SQL interfaces for Oracle EBS integration; performed root cause analysis and delivered fixes to critical production issues within SLA
- Implemented FlexDeploy with Gerrit as the code migration and version control pipeline for ModelN, replacing legacy Kintana and WinCVS tooling
- Applied major ModelN hotfixes including HF22 to production with zero issues; upgraded Oracle HTTP Server to 12.2.1.3; validated cloud disaster recovery setup and authored the DR playbook
- Supported PWC audits with evidence and clarifications; identified and resolved integration defects across multiple ERP, CPQ and CRM interfaces
- Rated Outstanding Contribution in two consecutive annual appraisals, FY 2019-20 and FY 2020-21

Project Engineer

August 2015 - November 2018

- Promoted to Career Group B2 in December 2017 in recognition of performance
- Built all production and non-production instances for the ModelN Winter 17 upgrade, executed the production cut-over at go live and led post cut-over sanity validation with business stakeholders
- Travelled onsite to Penang, Malaysia for one month to guide business users through user acceptance testing, drastically reducing turnaround and earning a personal commendation from the Broadcom module lead
- Installed and documented Oracle WebLogic 12c; developed and retrofitted PL/SQL interfaces and Perl scripts across EDI and RosettaNet distributor data flows

- Delivered monitoring and file processing automations that eliminated recurring manual effort and false alerts

ADDITIONAL CANADIAN EXPERIENCE

Assistant Manager, Special Events - Pizza Pizza Limited, Greater Toronto Area
September 2025 - Present (Part-time)

- Oversee multi-site event operations across the GTA including staffing and labour scheduling, inventory and cash control, and post-event reporting; recognized as Employee of the Month

Inventory Associate - Bolt Technologies Inc. (GoBolt), Markham, Ontario
May 2023 - February 2024

- Performed inventory audits, cycle counts and stock reconciliation; generated reports and analysis to support management decisions

EDUCATION

Ontario Graduate Certificate, Cloud Architecture and Administration
Seneca Polytechnic, Toronto, Ontario | January 2022 - August 2022

- 4.0 GPA, With High Honours, President's Honour List

Bachelor of Technology, Computer Science and Engineering
DAV Institute of Engineering and Technology, Jalandhar, India | 2012 - 2015

- First Division with Distinction

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900), Microsoft, 2022
- Microsoft Certified: Azure Data Fundamentals (DP-900), Microsoft, 2022
- AWS Academy Graduate, Cloud Foundations, Amazon Web Services, 2022
- AWS Cloud Practitioner Essentials and AWS Well-Architected Foundations, AWS Training
- SQL (Basic), HackerRank

AWARDS AND RECOGNITION

- Broadcom Star Award, Broadcom Global Technology Organization, 2021 - client-issued recognition for prompt and thorough troubleshooting and resolution of RosettaNet transaction issues
- Outstanding Contribution, Wipro annual performance rating, FY 2019-20 and FY 2020-21
- Victory League for Collaborative Working, Wipro Winners Circle, 2019
- Inspiring Performance for Extraordinary Commitment, Wipro Winners Circle, 2020
- Delivery Heroes, Wipro AMS, 2020, and SCSP TechFAME Customer Charmer, Wipro Technology SBU, 2019

SELECTED TECHNICAL PROJECTS

- Three-tier web application on Amazon EKS: deployed a containerized Python and MySQL application to a managed Kubernetes cluster using Deployments, Services, Secrets, ConfigMaps and Persistent Volumes. github.com/dhananjaydogra/ddogra1_clo835_final_project_docker
- Multi-environment infrastructure with Terraform: modular infrastructure as code across three environments with Application Load Balancer, Auto Scaling and VPC peering. github.com/dhananjaydogra/ddogra1_ACS730_final_project
- CI/CD pipeline with GitHub Actions: automated Docker image builds into AWS Elastic Container Registry with deployment to Amazon EKS. github.com/dhananjaydogra/ddogra1_clo835-labs
